

# TRAIN4COORDINATORS

Online training for youth volunteering coordinators on the validation of competencies, skills and qualifications  
ISSUE 03 - SEPTEMBER 2023

## IN THIS ISSUE:

E-LEARNING  
PLATFORM

SELF-ASSESSMENT  
APP NEARING  
COMPLETION

MULTIPLIER EVENTS

NEXT STEPS

## Project progress

We are excited to give you an update on our development since the publication of the second issue of our newsletter because the project is now nearing completion.

In order to improve the abilities of volunteers, we developed the volunteer training management toolkit, which served as the foundation for the online training platform.

In addition, we are eager to present our accomplishments in a number of upcoming training sessions, multiplier events, and the final transnational project meeting in Spain. For additional details, continue reading.

# E-learning Platform

The project consortium is very pleased to announce the development of the e-learning platform, which includes training materials focused on enhancing the skills of volunteer coordinators in various areas, including communication, leadership, social media, public relations, volunteer management software, and monitoring and evaluation of volunteer programs, among others. The platform will be used in the final process of organizing online training courses in each project partner country where they will train youth workers, young volunteers, volunteer coordinators, and disadvantaged youth.

Through the Train4Coordinators Online Learning Platform for Volunteer Coordinators, all materials will be available. Its primary objective is to disseminate the developed volunteer training management toolkit to volunteers, youth workers, and volunteer coordinators.

## Self-assessment app nearing completion

Partners are in the final stages of developing the app that will be uploaded shortly. This application will allow users to evaluate their skills, knowledge, readiness, and attitude towards the implementation of self-planning, self-learning, and self-assessment of voluntary civil services, to understand the developed competencies with a mobile app, and to facilitate the monitoring of competencies in voluntary civil services.

## Multiplier events

The last project activities include the organization of multiplier events in each project country. The events are being planned and will be structured as youth volunteering management seminars.

The main topics of the seminar will include: values of recognition of volunteering; core competencies; quality of volunteering and infrastructure for volunteering management; demonstration of the online learning platform; demonstration of the self-assessment mobile application, and sharing of pilot training results.

## What's next?

### Closing project meeting

Topics of the conference will be: Recruitment and management of youth volunteers; Improvement of the volunteer journey; Impact of volunteers; Improvement of the quality of provision; Professional development for youth volunteering coordinators; Key trends in youth volunteering; Online learning platform; Self-assessment application; Pilot training results.

Final project transnational meeting in Seville Spain 23 November 2023
